
RONALD T. SARAGA

Makati City ♦ +(63) 927 653 4784 ♦ ronaldsaragacpe@gmail.com

OBJECTIVE

Analytical and detail-oriented Technical Analyst with a strong background in Computer Engineering, systems management, and process optimization. Experienced in supporting technical operations, implementing electronic management systems, and providing IT support for testing and data validation. Passionate about automation, embedded systems, and continuous improvement through technology-driven solutions.

WORK HISTORY

TECHNICAL ANALYST – TECHNICAL SUPPORT DEPARTMENT (TSD), JULY 2025 – PRESENT

- Analyzed and validated test worksheets and results in compliance with Philippine National Standards (PNS), ensuring accuracy and reliability of data.
- Assisted in laboratory testing and sample evaluation while providing technical support to engineers and technicians.
- Monitored and maintained company computer systems, including software updates, to support testing operations and overall efficiency.
- Led the implementation of the Electronic Management System (EMS) for document control, enhancing workflow, data traceability, and record integrity.
- Designed, developed, and maintained an Excel-based client database to systematically organize client information, test records, and documentation, improving data accessibility and reporting.

INTERNSHIP – DILG-NAPOLCOM CENTER (Legal and Legislative Liaison Service Department)

- Assisted in filing and organizing legal and administrative documents
- Performed data encoding and updated department spreadsheets
- Supported staff in communication (taking calls) and document routing
- Gained exposure to local governance processes and administrative workflows
- Contributed to the digitalization of physical records and administrative files for improved document access

EDUCATION

Arellano University, 2018 – 2020

ACCOUNTANCY BUSINESS AND MANAGEMENT

Bestlink College of the Philippines, 2021 – 2025

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

SEMINARS AND CERTIFICATIONS

- Basic Occupational Safety and Health (BOSH) Training – Safety Officer II
- BITZ 2023 Session 2: Understanding the Innovation Role in Digital Transformation [April 27-29, 2023]

- Tecscape: Discover Innovation in the Cool Climes of BSIT [December 4-6, 2023]
- Future Ready: Reskilling the Workforce for the AI Era [October 26, 2024]
- Research Forum: Basic Knowledge with the Research Trends from Multidisciplinary perspective in Engineering, Information and Communication [September 4, 2023]
- Research Forum: Cultivating a Multidisciplinary Research Culture with Artificial Intelligence: Innovation and Impact [September 8, 2024]
- From Zero to Arduino: A Beginner's Guide to Creating Interactive Electronics Projects [February 20, 2025]
- Impact of Artificial Intelligence on our Daily Life [February 14, 2025]
- Lifetime Associate Member of the Ascendens Asia International Research Club
- Introduction to Mold Assembly using NX [February 11, 2025]
- Introduction to CAD using NX [February 19, 2025]
- Technical Drawing: Module 03 (Flat Rounded Workpieces in One Elevation) [February 10, 2025]
- Cyberstoryahanay Presents: Safe Internet week with DICT Antique [February 21, 2025]

SKILLS

- Soft Skills: Attention to Detail, Organization, Team Collaboration, Problem Solving, Time Management, Adaptability
- Technical Skills: Microsoft Office (MS Word, MS Excel, PowerPoint)
- Communication: Written and Verbal Communication, email handling, Interdepartment Coordination
- Hardware knowledge: PCB Design and Microcontroller
- Software Knowledge: Sketchup, AutoCAD, Arduino IDE, EasyEDA, Circuit Design
- Web Development: HTML, CSS

PROJECTS

- Client Database (Web-based, Excel)
- Electronic Management System (EMS)
- CAPSTONE (Development of Multifunctional Computer Table using Arduino MCU and ESP-32 with Linear Actuator and Voice Command)
- DIY Drone using Scrap Materials and Arduino MCU
- Restaurant Website using HTML and CSS
